

BIOGRAPHY

Fredric S. Berger, P.E.

Chairman, *THE LOUIS BERGER GROUP, INC.*

Fredric S Berger, became Chairman of The Louis Berger Group, Inc.(LBG) in 2007. Previously he was a Senior Vice President actively involved with corporate affairs and projects in, and traveling regularly to, Afghanistan, Japan, the United Arab Emirates and Qatar. He served as LBS's first Corporate Ethics Officer and continues to oversee its Quality Assurance Program. He also is a director of LBG's parent company. For more information on the range of LBG experience and capabilities, see www.louisberger.com.

Mr. Berger's commitment to and involvement in sustainable economic development continues. He has been actively involved with LBG's international development programs since 1972, when his three-week pavement deflection inventory near Lagos turned into a three-year assignment throughout Nigeria. Mr. Berger was responsible for all corporate operations in Nigeria which ranged from agro-economics to surface transport planning, design and construction supervision to urban and university campus planning.. Since then Fred's involvement with development work, primarily in the transport sector, has spanned all four LDC continents and includes technical contributions to or active supervision of projects in some 70 countries.

In addition to his corporate activities, Fred currently serves a series of organizations:

The American University of Afghanistan (AUAF): founding Trustee, 2nd Vice Chairman of the Board and Chair of Land & Buildings.

American Council of Engineering Companies (ACEC): former National Officer; member, International Committee, former Chair and liaison to ASCE's IAC; member, Engineering Excellence Award Committee; Member, Committee of Fellows.

American Society of Civil Engineers (ASCE): formerly Vice Chair of IAC, now member and designated liaison between ASCE's IAC and ACEC's International Committee. Assisted with the start up of and later sat on the advisory board for the ASCE's Professional Capacity Building program in Afghanistan. Honored by ASCE with the 2007 OPAL award.

IECIC: as former Chairman of the International Engineering and Construction Industry Council, an A/E/C industry coalition, led a delegation to Japan as part of an opening to US firms of a government to government negotiated opportunity for US firms to participate in the Japanese infrastructure expansion program

ITAC 10- Services: professional services industry representative (along with executive director of ASCE and representatives from AIA and AGC) on the Industry Technical Advisory Committee (Services) to ensure our profession's voice is heard and position considered by the US Trade Representative and the Department of Commerce during global and bilateral trade negotiations.

TUFTS University: member of the board of overseers, School of Engineering and Environment; member advisory board, Institute for Global Leadership, Representative on the Berger Technology Endowment to the Tisch Library.

University of California San Diego IRPS: member of the International Advisory Board of the graduate school of International Relations and Pacific Studies at the University of California at San Diego;

Fred holds a BA in Economics from Tufts University (1970) and a SM in Civil Engineering from the Massachusetts Institute of Technology (1984). He is licensed as a professional engineer in the District of Columbia. He lives in the Washington DC area with his wife of 35 years, Betty Brannan-Jaen, a foreign news correspondent. They have three adult children: Sofia, Nathan and Susana.
