

## **Bill Smith**

Senior Vice President, Energy Sector  
Siemens Canada Limited

**SIEMENS**

### **Area of responsibility**

As the Senior Vice President of the Energy Sector in Canada, Mr. Smith is responsible for all energy related activities for Siemens in Canada.

The Siemens energy portfolio encompasses all sales, service and project operations within the fields of Fossil Power Generation, including nuclear Balance of Plant and plant process controls; Renewables, primarily wind power; onshore and offshore Oil & Gas; Power Transmission, which includes high voltage solutions and transformers; and Power Distribution, which includes medium voltage equipment and energy automation solutions.

Prior to joining Siemens, Mr. Smith worked for twenty-one years at Ontario Hydro and Ontario Power Generation, initially as a Project Engineer at the Bruce and Darlington nuclear plants, and was promoted to the role of Vice President-Supply Chain.

Mr. Smith is a Professional Engineer with a Bachelor of Engineering degree (with distinction) from Carleton University and an MBA from York University.

Siemens is one of the largest and most diversified companies in the world of electronics and electrical engineering, operating in the industry, energy and healthcare sectors. The company has approximately 6,000 employees in Canada, working to develop and manufacture products, design and install complex systems and projects, and tailor a wide range of solutions for individual requirements. For almost 100 years in Canada, Siemens has stood for technical achievements, innovation, quality and reliability. Sales for Siemens in Canada for fiscal 2008 (ended September 30), were \$2.6 billion CAD. Further information is available at [www.siemens.ca](http://www.siemens.ca)
